

The Alliance Undergoes Website Renovations

(Toronto, ON) June 22, 2006... The Canadian Alliance of Physiotherapy Regulators (The Alliance) is working to enhance its website to serve as a dynamic resource for Credentialling Applicants, Examinations Candidates, Member Regulators, and the general public.

Through the help of Internet Database Technologies (www.idbt.com), the new website will provide better navigation, greater visual appearance, and improved functionality for Applicants and Candidates. Information will be organized into subsections to assist Candidates and Applicants in locating documents and resources.

“We are excited to be able to expand our online capabilities and improve our services,” says Tabasom Eftekari, Director of Credentialling and Corporate Services, of The Alliance. “The Credentialling and Examination process can be a daunting experience. The new website will make the process easier for Applicants and Candidates with resources and answers to their questions available through the click of a button. When online registration is launched in the Fall, we look forward to being able to assist even further by providing features like Credentialling progress tracking, exam site selection, and online payment.”

Highlights to the new website will include:

- More information on The Alliance and its exciting initiatives and projects
- Secure online registration for Examination Candidates and Credentialling Applicants
- Secure online payment capabilities
- Credentialling applicant file progress tracking
- Searchable Frequently Asked Questions (FAQ) for Examinations and Credentialling
- Password protected Members' Only area for The Alliance Board of Directors, Committee members and stakeholders

With development of the new website beginning early 2006, the anticipated launch of the public site will be in July 2006. Other areas and capabilities of the site, such as online registration, will be launched in stages throughout the year. Development of the website will continue until 2007.

The Canadian Alliance of Physiotherapy Regulators (The Alliance) is the national federation of provincial physiotherapy regulators serving the public interest. Members work together to establish national consistency of physiotherapy regulations and standards of practice. Services include administration of the national entry to practice examination, credentialling programs and member services. The Alliance offices are located in Toronto, Ontario.
