Chapter 6: Candidate Feedback and Additional PCE Resources

After reading this chapter, you will know:

- how to give feedback to CAPR after you have taken the PCE.
- Links to additional PCE Resources

Purpose of Candidate Feedback

The CAPR welcomes your feedback on all aspects of the exam program. We use your feedback to

- revise exam resources (such as the Registration Guide or this Essential Guide for Candidates to the PCE);
- improve communication with candidates; and
- identify issues related to exam facilities.

How to Provide Feedback

For the computer-based exam, you will have an opportunity to provide feedback via a survey link after you submit your responses.

For the both the written and the clinical component, CAPR will send you a link to an online feedback form after the exam.

Please do not send feedback by email.
